CONSERVATION IS STRONGLY UPHELD

Pinchot and Garfield Warmly Defend Their Policies at St. Paul.

Ex-Forester Pinchot and ex-Secretary of the Interior James R. Garfield were guests of honor at a banquet given by the St. Paul Roosevelt Club Saturday night.

Mr. Pinchot spoke on "Our Natural Resources and How to Conserve Them."

He said that conservation had "captured the Nation." "All monopoly," he added, "rests on the unregulated control of natural resources and natural advantages—and such control by the special interests is impossible without the help of politics. The alliance between business and politics is the most dangerous thing in our political life. It is the snake that we must kill. The special interests must get out of politics, or the American people will put them out of business. There is no third course."

JAMES R. GARFIELD.

He said it was a vast undertaking to drive the special interests out of politics. There were two remedies. The first was honesty in public men; the second, complete publicity. He concluded:

"The special interests must be put out of politics. I believe the young men will do it."

Mr. Garfield talked on the "Ultimate Results of Conservation," and his address was more fiery and even more denunciatory than Pinchot's, and declared that the principles laid down by himself and Pinchot might be construed as the formal announcement for a campaign for the revival of the Roosevelt policies.

A message of felicitation to President Taft, the adoption of a platform endorsing the National Administration; the selection of W. D. Connor, of Marshfield, as state chairman; the choosing of a campaign committee of 22 members, two from each Congressional district, marked the closing day's session of the Wisconsin Republican State Convention.

Farmers Stand Up for Rights.

COEUR D'ALENE.—After a three days' session the convention of farmers' unions, representing the states of Oregon, Washington and Idaho, adjourned.

At the final meeting resolutions were adopted demanding the establishment of an effective parcels post and postal savings bank system, the prohibition of gambling in futures, consolidation of national resources, the election of president and United

States senators by direct vote of the people, condemning the action of the Washington state railroad commission in making the appointment of state grain inspector without consulting the union, and condemning the practice of appointing as deputies the friends of the corporations that have so unmercifully exploited us in the past, and demand that this position be filled by a man from our own ranks.

The physician says that no bones are broken and that there is very little swelling.

As the date of the Jeffries-Johnson ring battle approaches, the many thousands of people interested in the match continue to speculate more than ever on the result. The betting still remains at odds of 10 to 7, with Jeffries the favorite, but if there is any change it will be to shorten the price, as Johnson money is sure to put in an appearance with the close of the month. Tom Corbett has been appointed official commissioner by the club, which means that on the day of the fight he will have the right to handle all wagers, that the sports care to make.

NEWS FROM OUR NATIONAL CAPITAL.

What Our Lawmakers Are Doing and Other Items of Importance.

WASHINGTON.—By the overwhelming majority of 195 to 101, the House passed the postal savings bank bill as recently agreed upon by the Republican caucus of the House.

Under the terms of the postal savings bank bill passed by the House a board of trustees is created, consisting of the Postmaster-General, the Secretary of the Treasury, and the Attorney-General, who shall declare what Postoffices shall become postal savings banks.

Deposits in these banks made by any one person shall not be more than \$100 a month or exceed a total of \$500.

The money accumulated in the Postal Savings Bank is to be deposited in both National and state banks in the vicinity of the postoffices in which the money is deposited by the people, such banks to pay 2 1/4 per cent interest.

Would Control Railroad Stock.

President Taft made it clear at a conference with the conferees on the railroad bill that he will insist upon legislation against "stock watering." As a result of the conference it was agreed that a paragraph shall be added to the bill providing for a commission to investigate and report at the next session of Congress the best means of dealing with this situation. The President was told that with all the Democrats but one opposed to giving the Interstate Commerce Commission supervision of the subject, it was impossible to get an out-and-out provision for the control of stock and bond issues in the bill at this session.

Taft Wants Congress to Hurry.

President Taft has asked the leaders of the Senate and House to adjourn by July 1, if there is any possible way of doing it. President Taft is impatient, so emphatic is the President's plea for an early adjournment that the leaders commenced a vigorous campaign. Representative Dwight of New York, Republican whip, has charge of the early adjournment committee of the House. Vice-President Sherman has been campaigning for celerity in the Senate.

May Support Withdrawal Bill.

The Administration bill authorizing the President to withdraw public lands temporarily will receive the votes of a number of Western Senators who regard it as bad or ill-considered legislation. These Senators will support it solely because they regard it as the best present solution of a perplexing problem. Obnoxious as they declare the bill to be, they are of the opinion that it is less obnoxious than results that would follow should the bill be defeated. Moreover, the bill is to be forced to carry through the \$30,000,000 irrigation bill, and that in itself will win it a number of Western votes.

Agree on Naval Program.

After overruling the recommendations of its conferees on the naval appropriation bill by agreeing to the Senate amendments that one battleship should be built in a navy-yard and not more than one should be constructed by the same contractor and agreeing to have a \$1,000,000 collier built in a navy-yard for the Pacific Coast, the House has approved the report of its conferees on that measure.

Public Domain Increased.

By approving the latest step in the reclassification of the national forests and public lands, President Taft increased the public domain available to homestead entry to 1,182,812 acres and increased the national forests 381,094 acres. The reclassification is the Government's hope of stemming the tide of emigration from the United States to the Canadian Northwest. With more than a million acres now available for homestead entry, it is claimed there will be no need of settlers going over the border to gain the advantages of a virgin homestead.

Oklahoma City Capital.

OKLAHOMA CITY, Okla., June 14.—Rumors that Governor Haskell intended making Oklahoma City the

permanent seat of government, as the bill which carried in Saturday's election contemplated, were confirmed when Governor Haskell issued a statement declaring that his force would remain here. ITEMS OF INTEREST THROUGHOUT OREGON

Chronicle of Important Events of Interest to Our Readers.

Prohibition Party Names Ticket. PORTLAND.—The nominating committee of the Prohibition State Convention, which met in this city Friday, named the following ticket for state offices:

For Governor—A. E. Eaton, of Union.

For Secretary of State—N. A. Davis of Milton.

For State Treasurer—Leslie Butler, of Hood River.

For Congress, Second District—George B. Platt, of Portland.

The platform is the most interesting feature of the convention, for it covers a wide range. Cognizance is taken of the recent convention of retail liquor dealers who have determined on a higher standard of saloons, but the Prohibition platform contends that the better the saloon, the more pernicious.

Taft Opens Big Tract.

PORTLAND.—The President has signed a proclamation eliminating 203,635 acres from the Wallowa National forest, Oregon. The elimination is the result of a careful examination made by the United States Department of Agriculture during the past summer, which disclosed the fact that the areas now eliminated were either open grass land with very little timber or timbered areas so largely alienated that further administration by the Forest Service was considered impracticable. The lands released are not needed for watershed protection, and are not considered to be chiefly valuable for National forest purposes. The unappropriated portions of the areas eliminated by this proclamation will be restored to settlement and entry after having been advertised in the local papers by the Secretary of the Interior.

Great Tract of Land on Sale.

PRINEVILLE.—The great acreage of the Willamette Valley & Cascade Mountain Wagon Road land grant is on the market in its entirety. President Watson P. Davidson, of the company now owning these lands, states that every acre of these lands is for sale, and that any man who was an actual settler, and would furnish a good reason why he could not pay for the lands at the time of purchase, would be taken care of with a small payment down on the lands he selects and the balance of the purchase price could be paid in five or more annual payments at 6 per cent interest. The new company will not deal so kindly with investors, however, for it is their desire to colonize the lands with actual settlers.

New County Line Asked.

SALEM.—C. S. McDuffy, of Portland, has filed a county initiative petition, proposing to cut off a large section of Washington county and add it to Multnomah. Mr. McDuffy also has filed the Otis and Williams county petitions and the petition providing for detaching a portion of Clackamas county and adding it to Multnomah county, and it is understood that he has in charge the Orchard county petition, making a total of five new counties created or old ones whose boundaries may be altered by Mr. McDuffy's efforts.

Crazed Herder Kills Employers.

LAKEVIEW.—The murder of Walter and Herbert Newell, prominent young sheepmen, who were shot from ambush near Plush, Lake county, by a discharged sheepherder named Bolivar, has created great excitement and two posers under Deputy Sheriff's Arthur and Snider, left here heavily armed, for the scene of the crime.

The victims were about 21 and 23 years of age, bore excellent characters for sobriety and industry, and no reason can be assigned for the crime other than that the killer had gone insane while under the influence of liquor.
